1. Duty to Accommodate Grievance #32206 - S/C #241-7, 249-2	a) Looking at setting up a meeting the second week of October. We will be in contact with our National Representative and work out a date and time.		Follow Up	Union
2. Labour Agreement, Article 1, Sec. 4, Grievance #4781 - S/C #246-8, 249-3	a) Looking at setting up a meeting the second week of October.		Follow Up	Union
3. Pulp Price Trigger Bonus Payment - S/C #243-10, 248-4, 249-5	a) Our understanding is that Catalyst is meeting with their Union's Local this week and this issue will be discussed there by our National Representative. We will advise you of any progress from this meeting.		Follow Up	Union
4. Union Shut Day - MOA S/C #249-8	a) Today we have given you a letter, which will inform you that we will not be taking a Union Shutdown during the contract year of May 1, 2007 - April 30, 2008. As per the memorandum, local 1133 are exercising the option of receiving the payment-in-lie.	b) We will process your letter of notification for the final payment within the 2003-2008 contract.		
5. Turnaround Job Review Update		a) We had meetings last week with the crews going over the shutdown and discussing the importance of PPE and safety. The major job for the shutdown is the Duoshake installation, which will

		<p>start up directly after shutdown. Some other jobs are tank inspections, drilling extra holes in the HCR, changing out the top Nipco, breast rolls, winder cradle, wrap line conversion and bottom extensible roll cover.</p>		
		<p>We will be stamping valves to be left closed while locking out to try and eliminate opening valves and having problems during startup.</p>		
6. Business Update		<p>a) Specialty Paper Manager gave a complete business overview .</p>		
7. Machine Speedup	<p>a) We have concerns on the lack of prior information on the speedup of the machine and the certification of the machine for the high speed. Any future speedups should be dealt with in a logical and progressive manor with full support from the local.</p>	<p>b) It is the Supervisor's responsibility to pass on the information. We spent time talking to the Operators as we were speeding up.</p>		
	<p>c) We need to get together prior and discuss what is going to happen with the machine. It was part of the WCB order to have the machine recertified upon any modifications.</p>	<p>d) You have a Senior Operator on every crew who communicates that information.</p>		
	<p>e) We are requesting a formal meeting with our safety members, WCB and management to discuss the certification of the machine at the new speed. We would like to see some data on the new speed.</p>	<p>f) We will take the request for a meeting it under consideration. As soon as we gather information on the speedup, we will pass it on to you. We will also follow up with our Supervisors.</p>	Follow Up	Union

8. Job Bids at Northwood	a) If there is an opening at Northwood and none of their members bid on it, why can we not bid on it before it goes out to the public?	b) The job bids at Northwood fall under the jurisdiction of CEP Local 603. The similar arrangement you are talking about does exist at PGI between PPWC and CEP that was negotiated in both contracts.  At this time, there is no arrangement between PGI and Northwood. If there were to be an arrangement, it would have to be negotiated.		
9. Paper Machine Crew Reorganization - S/C #204-13, 249-1	a) Can we have an update on the progress?  c) Has there been any work done on the rates?	b) We will be having a Supervisors' Meeting at the end of the shutdown to review the progress of the training and determine if we are where we want to be. We will be proposing a date for the change of the line of progression at that time.  d) It's being worked on.
